### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Don Halgren on May 7, 2006.

The application has been amended as follows:

In claim 1, line 4, "an laser" has been deleted and -- a laser -- has been inserted.

In claim 14, line 2, "placing a plurality of laser fibers through said endoscope" has been deleted and -- placing at least one laser fiber in said balloon -- has been inserted.

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: formal drawings are required. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or fairly suggest a method for treating esophageal lesions by inserting an inflatable balloon within the esophagus, said balloon including a laser fiber and a visualization port, each being individual steerable within the balloon to position the apparatus for treatment of the lesion, and generating laser energy through the fiber with a wavelength of from 520 to 650 nanometers with a pulse width of from 0.2 to 100 milliseconds. U.S. Patent Application Publication US 2003/0060813 to Loeb et al. discloses a medical device for the application of radiant energy to the surface of a duct using an inflatable balloon, but has no visualization capability. U.S. Patent 5,409,483 to Campbell et al. teaches a surgical probe with

a viewing capability fixed at the end of the probe, however, the viewing port is not independently positionable and the method of use is directed to prostate treatment rather than esophageal treatment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Henry M. Johnson, III whose telephone number is (571) 272-4768. The examiner can normally be reached on Monday through Friday from 6:00 AM to 3:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda C. Dvorak can be reached on (571) 272-4764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
